Liberty Under Law—Equal Rights—True Industrial Freedom

# MARTIAL LAW IN INDIANA FOLLOWS STRIKE RIOTING.

## League of Nations May be Going Concern Within Month. WOOD IS IN COMMAND

### Two of a Kind Trying to Prop up Failing Steel Strike.

#### Federal and State Troops on Hand.

Two Thousand Sympathizers of Steel Men Defy Mayor and Join Parade.

State Troops Look on and are Jeered and Hooted by Spectators.

CHICAGO, Oct. 6.—Martial law was declared in Gary, Indiana Harbor and East Chicago, Ind., tonight.

The order placing Gary under control of the military came from Maj.-Gen. Leonard Wood, in command of Federal troops at that place.

Adj.-Gen. Smith of Indiana, acting on authority of Gov. Goodrich, declared martial law in the other two towns. Gen. Wood's order provided that no public meetings or assemblies might be held in "any street, park or other portion of the city." However, it specifically exempted from this provision churches, theaters and motion picture houses.

The order set forth that all men in the uniform of the United States Army in the city would be brought to military headquarters immediately. If investigation revealed that a particular man was "a part of the armed forces of the nation," the order added, he would be placed under the command of the military authorities in the city for duty. If, however, the man was out of the service, the order stated, he would be held "pending further investigation."

HOLD DISCHARGED SOLDIERS. This latter provision was taken to mean that discharged soldiers wearing their army uniforms in the city would be held in custody. The order was made effective immediately. It set forth that strict enforcement of law would prevail and that any citizens who failed to assist the military authorities in the city would be held in custody "as much as possible."

WOOD PRECEDES TROOPS. Maj.-Gen. Wood arrived at Gary two hours ahead of the troops. He ordered proclamation martial law be drawn up when the troops came into the town, with their loads of troops in various parts of the city.

The call for Federal troops was sent out late today after a hurried consultation between Mayor Hodges, Sheriff Barnes and other city officials. The conference was called immediately after reports came in that the strike sympathizers were gathering for a parade. It was deemed fruitless to endeavor to prevent the demonstration with the handful of State troops.

PARADEERS DEFT MAYOR. At the head of the parade in uniform carrying an American flag, behind him came a line of men in uniform variously estimated at from 200 to 700. Insignia of a dozen combat divisions were in evidence. Men in captain's uniforms marched side by side with the men in private uniforms. Following in the procession were hundreds of strike sympathizers. The sidewalks along the way were packed with spectators.

The State troops, in accordance with orders, made no effort to interfere. They were hooted by spectators as well as marchers.

The march continued to East Side Park. Here a mass meeting was held. A former soldier wearing two wound stripes appealed to the crowd for the release of thirty-four men who had been arrested today and yesterday on various charges. A shout went up for a march on the jail, where the men were confined. For a moment the situation looked serious, but the cry of the crowd let up when the speaker announced that a meeting of former soldiers would be held tomorrow morning to consider plans for procuring release of the prisoners.

FEDERAL TROOPS IN GARY. (BY A. P. NIGHT WIRE.) GARY (Ind.) Oct. 6.—At 10 (Continued on Third Page.)

WASHINGTON, Oct. 6.—Representatives of the public evinced an apt desire for action rather than oratory at the opening session today of the industrial conference called by President Wilson.

Apparently the determination of differentiating this conference from many similar gatherings held in Washington, the public delegates demanded that sessions be held night and day, if necessary, to establish a basis for harmonious relations between capital and labor during the present abnormal economic conditions. Bernard M. Baruch of New York, one of these delegates, was active in directing the affairs of the conference, which was considered significant in view of his close friendship with President Wilson and his frequent visits to the White House.

A shout went up for a march on the jail, where the men were confined. For a moment the situation looked serious, but the cry of the crowd let up when the speaker announced that a meeting of former soldiers would be held tomorrow morning to consider plans for procuring release of the prisoners.

FEDERAL TROOPS IN GARY. (BY A. P. NIGHT WIRE.) GARY (Ind.) Oct. 6.—At 10 (Continued on Third Page.)

William Z. Foster and "Mother" Jones.

Foster, exponent of "direct action" and whose red propensities have been thoroughly brought out in the Senate investigation of the strike, is supported, as agitator-in-chief, by "Mother" Jones, who, since gaining notoriety in the Colorado strikes of several years ago, has devoted her dubious and aged talents to stirring up class hatred.

\*\*\*\*\*  
LAVA CASCADE  
LIKE NIAGARA.  
Molten Flow from Mauna Loa Shows no Signs of Abatement.

(BY CARL AND ASSOCIATED PRESS.)  
HILO (T. H.) Oct. 6.—The flow of lava from Mauna Loa, which has been in eruption for more than a week, today showed no signs of diminishing. The molten river is foaming cascades, one high fall resembling Niagara in its dimensions.

Steam from the ocean, where the hot mass finds its way to the coast, is rising to an estimated height of 1000 feet. Spectators from the deck of a coastwise steamer Sunday night saw the flaming torrent the entire distance from its source to the sea.

\*\*\*\*\*  
BULLETINS.

(BY A. P. NIGHT WIRE.)  
ROME, Sunday, Oct. 6.—Near-Admiral Philip Andrews, in command of the American squadron, has issued orders for the withdrawal of the American ships from Spalato. American food supplies are being removed from the city.

DUBLIN, Oct. 6.—Forty Sinn Féin prisoners, including twenty-six brought from Cork prison, began rioting today in Mt. Joy prison after a hunger strike. They smashed the windows and took to their cells. Several prisoners were injured before the disturbances were quelled.

EL PASO, Oct. 6.—American mining officials who arrived here today from Chihuahua city reported that two Mexicans had started up today have many men at work and that they were not turning out any product.

There were no reports today of any attempt on the part of the Carnegie Steel Company, the largest subsidiary of the United States Steel Corporation, to start up idle plants.

HALIFAX (N. S.) Oct. 6.—A radio message asking for immediate assistance was sent by the American steamer Polar Land tonight. The message said she was leaking badly and that the pumps were unable to control the influx of water. Her position was given as latitude 40 north, longitude 53-47 west. This position is 1000 miles east of New York. The Polar Land, of 2501 tons, was bound from New York to Gibraltar with a cargo of wheat.

PREDICTS SPAIN TO BECOME A REPUBLIC.  
(BY CARL AND ASSOCIATED PRESS.)  
SARAGOSSA (Spain) Oct. 5.—Alejandro Lerroux, leader of the Republican party in Spain, declared at a meeting here that the signature of the treaty of peace would bring about a change in the regime in Spain, which would become a republic. He declared that in the event of a revolution he would check any excess.

### STEEL STRIKERS GIVE UP.

#### Leaders Admit Defeat in Pennsylvania; Many Plants are Resuming.

(BY A. P. NIGHT WIRE.)  
COATESVILLE (Pa.) Oct. 6.—The steel strike in Coatesville is ended. The strike leaders this morning advised those men still out to look for other jobs. When the strike began, two weeks ago, 1700 of the between 3000 and 4000 men employed by the Coatesville branch of the Midvale Steel Company and of the Lukens Steel Company quit work. The number of strikers dwindled each day until today there were about 500 still out.

PITTSBURGH RESUMING.  
(BY A. P. NIGHT WIRE.)  
PITTSBURGH, Oct. 6.—A break in the ranks of the steel strikers, hoped for by some of the companies, did not come about today when the third week of the struggle opened, but reports came in from different sections of the start-up of a number of smaller plants. Donora (Pa.) and Monaca (Pa.) plants were placed in operation.

The Wier Iron and Steel Company also started up part of its plant at Wierion, W. Va., while a few mills in Pittsburgh were claimed to be in operation on a small scale.

Strike headquarters said that if any serious attempt was made to cause a stampede of workers back to the mills it was a failure. It was asserted by union leaders that none of the plants reported to have started up today have many men at work and that they were not turning out any product.

There were no reports today of any attempt on the part of the Carnegie Steel Company, the largest subsidiary of the United States Steel Corporation, to start up idle plants.

MUST FILE SCHEDULES.  
(BY A. P. NIGHT WIRE.)  
SAN FRANCISCO, Oct. 6.—Under the law enacted by the last Legislature, placing steam heating plants and distributing systems under control of the Railroad Commission, the commission today ordered these utilities to file with the commission within thirty days schedules of their rates and explanations of their business methods.

A committee from the Council called on Mr. Marston this evening to ask him to consider the acceptance of the Mayoralty. He has asked until tomorrow to give an answer.

Mr. Wilde has been a prominent figure in San Diego several years. He was elected Mayor three years ago, when Mr. Marston was his opponent, and last April was re-elected over A. P. Johnson, Jr. He has been a progressive in all affairs and started many unusual movements, like the municipal oil well. He advocated bonds for a municipal pier and many other improvements for the city, which were opposed by the Council. It is said this opposition caused him to resign, but this was denied by C. P. Cook, his secretary.

SUBMARINE RAMS STEAMER  
(BY A. P. NIGHT WIRE.)  
NEW YORK, Oct. 6.—Quick action on the part of the crew in closing the water-tight "collision bulkhead" of the steamer Lexington tonight prevented a possible loss of life when the craft was rammed by the United States submarine O-7 in the treacherous waters of the Hell Gate channel in the upper East River.

The Lexington was bound for fifteen-foot radius was torn in the bow of the Lexington. The submarine was not damaged. Ensign J. Boyce, aboard the submarine, was the only man injured. His arm was crushed badly. The Lexington, which is owned by the Colonial Navigation Company, reached the Astoria shore and docked there.

### FIVE SHOT IN CAR RIOTS.

#### Oakland Strikers Attack Trolleys; Many Injured; Key Route in Operation.

(BY A. P. NIGHT WIRE.)  
OAKLAND, Oct. 6.—Five men, including Police Captain W. F. Woods, were shot in the rioting consequent upon the attempt of the San Francisco-Oakland Terminal Railway to resume streetcar traffic at the beginning of the sixth day of the strike. None of the wounds is dangerous.

Several other persons were slightly injured in a series of attacks on street cars sent out to break the strike. Most of the windows in three cars were broken and members of the crew were temporarily disabled by blows on the head from rocks.

Following the rioting eight persons were arrested on charges of shooting and ten others were taken into custody for alleged throwing of rocks and other acts. Guards riding in the cars were said to have fired on the crowd after the cars had been attacked with rocks.

Late this afternoon efforts to operate cars over the Oakland city lines were abandoned. The company's offer of 50 cents an hour was accepted today by motormen and conductors of the Humboldt Transit Company, after they had ended a strike Saturday, pending the result of arbitration on their demands for \$5 cents.

HERRELEY CARS RUNNING.  
The first Key Route train to enter Berkeley since the strike started its run at noon. In the downtown district Oakland the streets were densely peopled by strikers, their sympathizers and onlookers, but there has been no serious rioting.

One man, a passenger on a car, was roughly handled before the police could save him. He was escorted to safety by a policeman who was not followed. One of the non-union employees was hauled from a car and taken to the union-labor headquarters. A few rocks broke some windows in the cars.

The employees have issued a statement asking the public to refrain from violence and to confine their support to refusing to ride on the cars while they are manned by nonunion men. Chief of Police Lynch says that the strike is broken and that he does not expect more rioting.

HERE FOR ARBITRATION.  
Meetings in the interest of arbitration are being held today, representatives of both sides to the controversy, the Federal government and the business interests of the city, attending. It was announced that the prospect for arbitration appears good.

EUREKA, Oct. 6.—The company's offer of 50 cents an hour was accepted today by motormen and conductors of the Humboldt Transit Company, after they had ended a strike Saturday, pending the result of arbitration on their demands for \$5 cents.

### FIVE SHOT IN CAR RIOTS.

#### Oakland Strikers Attack Trolleys; Many Injured; Key Route in Operation.

# California Strong for League, is Los Angeles Message to Senate.

## HITCHCOCK PUTS WIRE IN RECORD

Favor President's Plan Overwhelmingly, Telegram.

McCumber Says Opponents Deceiving Public.

Declares Johnson Arguments are "Absurd."

(Continued from First Page.)

Nations. My purpose was not to show Senator Johnson had lost personal following there. My purpose was to show that the Republic of California, the business men, the laboring men, the churches, the women, large portions of the Reception Committee, and many of the former campaign managers repudiated his attitude upon the League of Nations. I am not saying that these elements of the community in California may not still be in favor of the United States; I am introducing it to show that Republican sentiment and public sentiment generally in California is so overwhelmingly strong in favor of the League of Nations that they repudiate even the attitude of a favorite son on that subject which shows a strength greater than any that I can conceive of in any State in the Union.

When Senator Johnson returns to the Senate he will have ninety-five colleagues who know, as they have never known before, that Senator Johnson does not represent the opinion of California on the League of Nations.

One of the first developments following the reading of the telegram was a noticeable disposition on the part of Republican leaders to force action. The shunting amendment will probably be voted on the latter part of this week, and the Johnson amendment some time about the middle of next week. Republican floor leaders served notice on Johnson's friends that any filibustering would have to be done on the personal responsibility of the Senator or Senators responsible for delay, and the Republican organization would not stand for delay in voting on the Johnson amendment. Some of them said that if necessary they would warn all Senators against filibustering.

Other Senators said they were willing to delay a vote on the Johnson amendment as long as it has any chance to change its vote in its favor, but that when he could not even deliver a majority of his own State the time has come to stop his masquerade under a League of Nations opposition trip to campaign for the Republican nomination for President. Johnson's refusal to take the advice of his fellow Republicans and return at once to Washington has had a bad impact among some of his best friends among the Republicans and is estimated to have cost him several votes. He is accused by several receptive candidates for the Presidency in the Senate to have "switched" and to have used the League of Nations issue to harm the country in furtherance of his own aim at the political expense of men like Senators Harding and Knox and possibly a few others. He will see the result when he examines the vote on his amendment, which is now in jeopardy.

Some Senators anxious to speed up the treaty, had indicated that it might be possible to jump right into discussion of the Shantung question, with prospects of a vote within the next few days. There was scarcely a reference to it, however, and as the debate was general, no effort was made to resume the reading so as to bring the Senate up to the Shantung amendment, next on the list for a vote.

Senator Hitchcock, objected to a

## OVERWHELMINGLY FAVOR LEAGUE.

Straw Votes Show Southland is Strongly Opposed to Johnson's Course.

Straw votes taken by The Times in forty-four clubs, chambers of commerce and other places showed 10,941 persons opposed to Johnson and only 997 favoring his course towards the League of Nations. College professors in practically every city of Southern California appear to be unanimously in favor of the league, and the faculty of Occidental College sent an appeal to Senator Johnson to cease his opposition. The Whittier Quakers passed a resolution favoring the league, eight out of nine members of the Los Angeles City Council and all the members of the Board of Education are for it and the members of the Long Beach City Commission also.

Members of both houses of Congress are counting on a record about the first of next month, and, as this depends, of course, upon final disposition of the treaty, the suggestion has been made by some Senators, it was said, that the two parties endeavor at separate conferences to figure on how much actual talking time will be required by both sides. As it seems to be admitted by all that every Senator knows now how he will vote regardless of future discussion, there is still a growing disposition in some quarters not to prolong the proceedings by speeches although Democratic and Republican leaders unite in declaring that attempts to cut off speeches will not be tolerated. What they seek, it is said, is a voluntary agreement, calculated to hasten a vote.

McCUMBER'S TALK HOT. Senator McCumber, in his speech today, sharply denied the argument that Great Britain would have six votes against one for the United States in the league, and contended that the United States would be the dominant power. At a mere nod from this moment, he said, ten countries of the Western Hemisphere had declared war on Germany, and it was the most natural thing in the world, he added, to find them standing with and voting with the United States "almost en bloc for anything the United States desired."

In a dispute between the United States and Great Britain, or in matters widely affecting the interests of either nation, Great Britain's colonies would have no voice in the league, Senator McCumber declared, and the League of Nations would follow the lead of the country.

"Senators who in private conversation would never dream of attempting to deceive one another," said Senator McCumber, "seem unable to resist the temptation to take advantage of a prejudice created by the deception and, with studied avoidance of the real and full truth, give this prejudice another lease."

As a substitute for the Johnson amendment, Senator McCumber urged his proposed reservation to exclude British colonies from participating in the league in disputes involving the mother country or each other.

## STRENGTH OF LEAGUE OF NATIONS' CAUSE PROVED.

Telegram from Pact's Advocates to Hitchcock Details California's Repudiation of Hearstite.

The Los Angeles county organization of the League to Enforce Peace yesterday telegraphed to United States Senator Hitchcock regarding Senator Johnson's recent visit to this city and in reference to the sentiment of this community on the League of Nations. The telegram in full reads:

The following telegram is sent you by the Los Angeles branch of the League to Enforce Peace as a brief summary of important actions that have been taken by individuals and organizations in Southern California on the subject of the League of Nations and its ratification by the Senate of the United States. The telegram is as follows:

"The morning after Senator Johnson's speech in Los Angeles the following open letter was an answer thereto was addressed to him by more than 150 men and women widely representative of all Southern California:

"Your recent statements that California stands with you in your opposition to the covenant of the League of Nations is incorrect. Hundreds of polls taken by newspapers, clubs and societies indicate that at least 75 per cent of the voters are in favor of the League of Nations for immediate ratification without amendment, which will be the first step toward assuring the peace of the world. Present chaotic world conditions will not in our judgment improve until the Allies have taken the League of Nations in matters of grave import we believe a representative ought to reflect the sentiments of the majority."

REPRESENTATIVE SIGNERS. The above telegram was signed by twenty-one judges and members of the bar, forty-three business men, nine ministers, five educators and college presidents, ten Federal, State and county officials, three labor leaders, five bankers, four professional men, and sixty-one club women leaders.

The board of directors of the Los Angeles Chamber of Commerce, representing a membership of more than 300, unanimously adopted the following resolution:

"Resolved: That it is to the best interests of the country that the League of Nations be immediately ratified and the League of Nations as it now stands without amendment."

FROM BENCH AND BAR. The following signed statement was published by prominent judges and attorneys:

"We have given careful study to the covenant of the League of Nations and have given due attention to the arguments which have been advanced in support and in opposition to the covenant. Further, we see clearly that unless the Senate ratifies the peace treaty with the League of Nations that our country must stand alone against the world and we must enter upon a stupendous burden of taxation upon every man and woman in America, and that our thought and energy must go for munition manufacturing rather than reconstruction and development of our resources for peaceful pursuits."

"We urge every thinking man and

woman to consider this matter wholly apart from partisan bias, racial hatred and national jealousy and to lend his or her influence to secure the ratification of the peace treaty with the League of Nations."

"N. P. CONREY, presiding justice, Department One, Second District Court of Appeal.

"W. J. HUNSAKER, ex-president of the Bar Association.

"E. A. J. WALKER, former Republican Lieutenant-Governor, with Johnson; and J. Stitt Wilson, distinguished orator and former Mayor of Berkeley, Cal., who for more than three hours compared statements of Senator Johnson in his Los Angeles address with the language of the League of Nations, and the conclusion of the meeting a rising vote was taken on the question of the League of Nations, with only twenty remaining sitting."

COMMITTEE TO FAVOR HELPING ARMENIANS.

REPRESENTATIVE OF COUNTRY ASKS FOR SMALL FORCE FOR MORAL EFFECT.

(EXCLUSIVE DISPATCH.)

WASHINGTON, Oct. 6.—In the hearings which are being held on the question of Armenia by a subcommittee of the Senate Foreign Relations Committee, of which Senator Harding is chairman, there is no attempt being made to dispose of the question of mandate over Armenia, by the United States or to decide on the future frontiers of Armenia, in the opinion expressed yesterday by Miran Sevasy, representative in this country of the Armenian National Union of America.

Further hearings will be held by the subcommittee this week. Among those still to be heard are Walter G. Smith, a prominent attorney of California, who has been in Armenia and is familiar with conditions there. Chairman Harding said yesterday he thought it possible there might be a realistic subcommittee some time this week.

While the members of the committee have not yet reached a decision on the resolution introduced by Senator Williams, which provides for the recognition of the independence of Armenia, and authorizes the President to use such military and naval forces as may be necessary to maintain peace in Armenia until the settlement of the affairs of that country has been completed by treaty between the United States and Armenia, and further authorizes the Armenians in the United States to equip and arm themselves for the defense of their countrymen. It is understood they favor giving some form of help to the stricken country.

Mr. Sevasy declares today that it would probably require six months for an Armenian army, composed of units which have served among the various Allied forces, to be organized and ready for action. In the meantime, a small force of American troops would have the required moral effect which would protect the Armenians, who need immediate assistance.

He did not share the opinion held by some, he added, that Great Britain was withdrawing her troops from that part of the world to force the hand of the United States, but that there were internal reasons which had actuated Great Britain in taking this step.

WORKING WOMEN ARE TO HOLD A CONGRESS.

(EXCLUSIVE DISPATCH.)

WASHINGTON, Oct. 6.—Thirty-four countries have been invited to send delegates to the international congress of working women, called by Mrs. Raymond Robins and Miss Mary Anderson of Chicago, on behalf of the National Woman's Trade Union League of America, to meet in Washington October 22.

No invitations were sent to the labor organizations of the enemy countries, the women's conference having been planned in accordance with what was believed to be the policy to be adopted in the case of the international labor conference called by President Wilson for the week of October 29. Premier Clemenceau was quoted in cable dispatches of September 29 as stating he believed delegates from Germany might be invited to the international labor conference, but no change will be made in the plans for the international congress of working women. In view of the doubt as to whether the question of the propriety of inviting delegates from the German and Austrian women's organizations could be established in the short time remaining before the date set for conference.

The call urges the delegates to prepare and bring to the women's conference material concerning agenda of the international labor conference especially bearing on conditions of working women.

Straw votes in many of the leading churches showed that the people are almost unanimously in favor of the League of Nations with reservations. Numerous pastors were instructed to forward telegrams immediately to Senators Phelan and Johnson, urging them to give the league their solid support.

"I doubt," he said, "if there is a

thinking man or woman in the United States today who is loyal to this country and unalterably opposed to the League of Nations. Those of us who sent our sons away to uphold the great principles of civilization know that the League of Nations is the hope of humanity."

"It offers the civilized nations an opportunity to arbitrate their differences just as individuals secure justice by going into the courts. Might never yet made right and killing permanent. It is gained by killing millions of men and women and children. Let us adopt the League of Nations and then let our great problems to Jesus Christ very prayerfully and let him guide us in the proper way."

## BALTIC STATES TO TALK PEACE.

Decide to Meet Red Delegates  
at Dorpat.

Kolchak and Denekine Forces  
Make Big Gains.

Ten Killed by Bomb Hurled  
Into Funeral Concourse.

(BY CABLE AND ASSOCIATED PRESS.)  
STOCKHOLM, Oct. 6.—Representatives of the Baltic states have decided to meet M. Tschakerting, Bolshevik Foreign Minister of Russia, at Dorpat, to open peace negotiations at Dorpat, the terms including the recognition of the independence of these states.

**KOLCHAK MAKES GAINS.**  
(BY CABLE AND ASSOCIATED PRESS.)  
OMSK, Sunday, Sept. 22.—The advance of the Siberian army under Admiral Kolchak since the resumption of the offensive September 1 has been carried out with a reversal to a distance averaging seventy-three miles along the whole front.

Fifteen thousand prisoners, a hundred machine guns and twenty-one heavy cannons have been captured in this movement, in which the forces of Admiral Kolchak brought the retreat to an end.

**DENKINE ADVANCING.**  
(BY CABLE AND ASSOCIATED PRESS.)  
COPENHAGEN, Oct. 6.—Denkine's troops are within thirty miles of Orel, on the road to Moscow, and the Bolsheviks who have been opposing him are surrendering in great numbers, according to a wireless dispatch from the Cosack anti-Bolshevik commander received here.

Polish forces have carried the fortifications of Dvinsk, between Old Russia and Poland, after two days of hard fighting, according to Berlin advices. All territory except a portion south of the Dvinsk River now is held by the Poles, it is said.

**FUNERAL BOMB KILLS TEN.**  
(BY CABLE AND ASSOCIATED PRESS.)  
HELSINKI, Oct. 6.—Ten persons were killed and twenty-eight others seriously wounded by the throwing of a bomb into a funeral procession in Moscow recently, according to advices from that city. Many other persons were slightly injured.

The dispatch states that the bomb, of the high-explosive type, was thrown by an unknown man "during the funeral of the victims of the recent bomb outrages in the Kremlin."

**BATTLE FLAGS GIVEN  
TO STATES' CUSTODY.**

**SECRETARY OF WAR DECIDES  
ON DISPOSITION OF  
COLORS AND GUIDONS.**

(EXCLUSIVE DISPATCH.)  
WASHINGTON, Oct. 6.—The Secretary of War directs that all instructions relative to the disposition of colors, standards and guidons of demobilized organizations be handled by the Adjutant-General's office without reference to general staff, according to the following principles:

(1.) Any that were used by organizations and which were brought into the service from the National Guard of any State will be returned to that State.

(2.) Any that were donated to be returned to the donor, if he so desires.

(3.) All others will be sent to the State which furnished the majority of men of the organization at the time of its formation.

(4.) Where original composition cannot be determined or where any particular organization was so cosmopolitan in its original make up that it could not be said to be identified with any particular State, the colors will be turned in to the Quartermaster-General, director of purchase and storage for national use.

In all cases title will remain in the United States, the colors, standards and guidons being merely entrusted to the State or donor for safe keeping. Only in exceptional cases, which cannot be handled by the above rules, will papers on this subject be referred to the chief of staff for decision.

**CALIFORNIA RECRUITS  
RETURN FROM SIBERIA.**

(BY A. P. DAY WIRE.)  
SAN FRANCISCO, Oct. 6.—Three hundred and seventy recruits from the American Expeditionary Force in Siberia landed here today from the transport Thomas, which arrived last night. The men, among the first to return from Siberia, are nearly all California recruits.

**ARIZONA NEWS.**

(EXCLUSIVE DISPATCH.)  
PHOENIX, Oct. 6.—The Arizona Federal court heard its fall session here, Judge William H. Sawtelle presiding. The criminal calendar is to be delayed a week, till arrival of a second Federal judge from San Francisco.

The million-dollar suit of Samuel Pandolfo against the banks of Arizona, on the basis of a letter concerning Pandolfo's operations made public by the Arizona Bankers' Association, was continued till April.

The attorneys for Jesse C. Palm accused of falsifying government accounts in connection with Arizona and Southern California land investigations, asked permission to withdraw from the case.

The Standard Oil tax suit came up in an application to restrain assessors from placing the company's Arizona property on the delinquent rolls, pending determination of legal questions involved. The Standard Oil tax assessors have right to tax any profits that may have been earned in California.

A number of prisoners were ordered released on plea of guilty and payment of fines or for reason of sufficient imprisonment while awaiting trial.

The Arizona Methodist Episcopal conference meets in Douglas, October 7. Bishop Leonard of Los Angeles presiding.

Arizona bankers have been called in convention in Phoenix, November 4.

## MIDDLE WEST NEWS IN BRIEF.

(EXCLUSIVE DISPATCH.)  
KANSAS CITY, Oct. 6.—The call for workers to collect \$2,000,000 in six days for the building of Kansas City's Liberty memorial, its visible appreciation of its service men, has been made. All of the veteran campaigners in the war drives will be asked to cap their efforts in this great soldier-appreciation campaign. The campaign is to be made in six days, October 27 to November 1, inclusive.

A wage increase of 5 cents an hour to transportation department employees was announced by the street car company late yesterday. The increase is effective October 15. All car crews are included in the advance.

A new high value for downtown Kansas City real estate was established yesterday in a lease for the Ellis Building, corner Eleventh and Walnut streets, the lease to run from 1925 to 1934, and to yield a net rental of \$16,000, a 5 per cent. net return on \$1,000,000, or more than \$20,000 value frontal foot.

**DETROIT.**  
(EXCLUSIVE DISPATCH.)  
DETROIT, Oct. 6.—Muskegon will attempt the Standard Oil Company to build two huge gasoline storage tanks within the city limits. It may get permission to build outside the city limits.

Lloyd Wyckoff, seeing the body of a woman on Michigan avenue near St. Joseph street, stopped his automobile and picked up the girl, who proved to be his niece. The girl died before reaching a hospital, she had been struck by an automobile.

**MINNEAPOLIS.**  
(EXCLUSIVE DISPATCH.)  
MINNEAPOLIS, Oct. 6.—The city taxes in Minneapolis will be 40 per cent. higher next year than in 1917, the estimate of the Board of Tax Levy today stated. Increases in salary, the high cost of materials and incurring deficits were given as the reasons for the big advance in taxes.

Pamphlets calculated to inflame racial feeling have been brought in to Minneapolis from Chicago by the I.W.W., according to word from the Department of Justice. The pamphlets appeal to the negroes to join the I.W.W. and help seize industrial plants.

Five that started in the Frederick Avenue Company, 14 Seventh street, with early yesterday, threatened to destroy an entire block of buildings, including the Schubert Theater.

**MILWAUKEE.**  
(EXCLUSIVE DISPATCH.)  
MILWAUKEE, Oct. 6.—Mrs. Evelyn Burdige of Racine, a prominent social worker, was arrested Saturday night charged with taking a trunk belonging to her landlord, Mrs. Burdige says the arrest was "split work."

The second of nine mine layers to be built by the Fabricated Ship Corporation has been launched. Each ship will cost \$135,000.

Henry H. Burton, son of the late Dr. Henry H. Burton, a Milwaukee pioneer, died Saturday.

Milwaukee's population has reached the 1915 city directory, which will be issued tomorrow.

**OMAHA.**  
(EXCLUSIVE DISPATCH.)  
OMAHA, Oct. 6.—L. J. Behring, Burlington switchman, was arrested.

# Too Ill to Work

## Scores of Women

in homes, stores, offices and factories are not fit to be at work. They toil on day after day and year after year suffering with distressing weaknesses and derangements, hoping against hope that they will soon feel better, but how can they hope to do good work or escape permanent invalidism?

Such women are in danger of derangement of women's functions. They owe it to themselves to try that good old fashioned root and herb medicine, Lydia E. Pinkham's Vegetable Compound, which for more than twenty years has been restoring American Women to health and strength.

### Here is a Notable Example

Joplin, Missouri.—"I took Lydia E. Pinkham's Vegetable Compound and see if it really would do as it was verified and it sure did, and now, was weak and could not do any work, had bearing down pains and to go to bed. I learned about the Vegetable Compound from my husband and my husband told me to get it. After taking one bottle I was able to be on my feet most of the time and do my work again. I have been eleven months old and I have done my own work, even the washing and ironing since she was three weeks old. I certainly recommend your compound to everyone who complains of female trouble and I am sure willing for you to use my testimony."—Mrs. TIMOTHY GRANT, 426 Connor Ave., Joplin, Mo.

### And Another

Chicago, Illinois.—"I suffered for years with pains in my sides, legs and a terrible backache. I did not do any work at all. I was helped by many physicians but they did not help me. I read in one of your papers where other women have been helped by Lydia E. Pinkham's Vegetable Compound, so I tried it and it did me very much so that now I am everything in the house. I have my friends about Vegetable Compound and you have my permission to use my letter."—Mrs. I. OVENSTEN, S. Marshfield Avenue, Chicago.

## TWO NEGROES ARE LYNCHED.

Mob Follows Sheriff with His Prisoners, Takes Them.

Soldiers in Arkansas Search for Leader of Blacks.

Plot for General Killing of Whites Nipped in Bud.

[BY A. P. NIGHT WIRE]

LINCOLN (Ga.) Oct. 6.—Jack Gordon and Will Brown, negroes, were lynched by a mob here early today and their bodies burned. The victims of the mob were charged with having shot Deputy Sheriff Roy Freeman and Boyce Fortson, near here, late Saturday. Freeman is not expected to live.

Mose Martin, another negro, was killed by a posse late yesterday during the hunt for Gordon and several other blacks were whipped for refusing to give information as to Gordon's whereabouts.

The lynching took place about 4 o'clock this morning after Gordon had been taken from the custody of Sheriff Kelley of Wilkes county, by a mob said to number approximately 1000 persons. The other negro, Brown, is being held by the mob awaiting the arrival of Gordon. The two were strung up on the outskirts of the town and after their bodies were riddled with bullets, they were cut down and placed on a pile of burning pine wood.

WASHINGTON (Ga.) Oct. 6.—Gordon, charged with wounding Deputy Sheriff Freeman near Lincoln, Ga., Saturday night, and Will Brown, another negro, were lynched early today near the scene of the shooting, according to reports received here. Gordon was taken from this place early today by the county Sheriff en route for Lincoln and a number of white men in automobiles followed.

TROOPS SCOURING COUNTRY.

[BY A. P. NIGHT WIRE]

HELENA (Ark.) Oct. 6.—In an effort to capture Ed Warr, alleged ringleader, and a band of twenty other insurgent negroes believed still at large following last week's disorders, 300 soldiers today were thrown out in a cordon encircling an area of approximately thirty-five square miles in Southern Phillips county.

Sam Wilson, a negro, suspected of the killing last Thursday of Corp. Luther Earl, Co. H, Fourth Infantry, was captured at Snow Lake, forty miles south Sunday afternoon, and was taken to Elaine last night.

The Sheriff's office reported the killing of a negro in West Helena last night when he resisted arrest.

NEGROES IN MASSACRE PLOT.

[BY A. P. NIGHT WIRE]

ELAIN (Ark.) Oct. 6.—Discovery of what is believed to have been a widespread plot on the part of organized negroes for a general killing of whites led officials today to tighten up on emergency measures.

The existence of the supposed conspiracy was brought to light by the committee of seven appointed following the race disorders here last week.

According to committee members negro captives readily revealed the inner workings of the plan. Today October 6, the negroes declared, was the date set for the uprising. Women are said to have been members of the organization which the authorities say was the Progressive Farmers and Household Union of America.

Twenty-one white persons in this district, according to the confessions, had been singled out to be killed first. The killing of the twenty-one, it was asserted, was to be followed immediately by a general massacre of whites, after which the negroes were to take over the land and till it. Efforts were being made to connect white men with the propaganda to arouse the negroes and incite them to killing the white residents.

NEGRO LEADER PREYS ON THEIR IGNORANCE.

POSES AS GOVERNMENT AGENT TO LEAD THEM IN HUNG AGAINST THE WHITES.

[BY A. P. NIGHT WIRE]

HELENA (Ark.) Oct. 6.—A statement was made today on the recent riots by E. M. Allen of the committee of seven authorized by local officers and Gov. Brough to investigate the trouble, charging that the affair was an organized negro uprising, fostered by a negro who preyed on "the ignorance and superstition of a race of children for monetary gain."

Mr. Allen, who was one of twenty-one leading men marked for death, after his confession, examining circulars and other evidence procured by State and military officers in connection with the work of the committee, issued the following statement to explain what the committee had found to be the situation leading to the killing of five white men and upward of a score of negroes.

"The present trouble with the negroes in Phillips county is not a race riot. It is a deliberately planned insurrection of the negroes against the whites, directed by an organization known as the 'Progressive Farmers and Household Union of America,' established for the purpose of banding negroes together for the killing of white people. This union was started by Robert L. Hill, a negro 25 years of age, of Winchester, Ark., who saw in it an opportunity of making easy money. He had been a farmer all his life, but lately had been posing as a 'private detective' doing work in this and all foreign countries."

ORGANIZER A "LODGE."

"He started his first union work in April of this year. He organized the 'ratio lodge' in May of this year. He told the darkies that he was an agent of the government, and because the Senators and Representatives in Washington were white men and in sympathy with the white men of the South, it was impossible to get the negroes that had been promised them for service in the army and so the government had called into existence this organization which would be supported by the government in defense of the negroes against the white people. He told them it was necessary for all members of the union to arm themselves in preparation for the day when they should be called upon to attack their white oppressors."

"The slogan of the organization is, 'We battle for our rights.' The password of all the negroes was, 'We have just begun.'"

"He told them that those members who were unable to buy ammunition would be supplied by the union from the government storehouse at Winchester."

THE MERCENARY SIDE.

"The purely mercenary side of it develops as follows: 'Negro men were charged \$1.00 entrance fees and negro women 50 cents. At the second or third meeting he would bring Dr. V. E. Powell of Winchester with him, who purported to be the examining physician for the government in its work of registering the negroes in defense of their rights. A certificate was filled out and signed by the doctor and given to each negro upon payment of 50 cents. This certificate was supposed to be the registration document. These negroes who were possessed of funds in amounts from \$5 to \$25 were enrolled, in an advanced section and then they had upon payment of whatever sum he (Hill) could procure in excess of \$5, a certificate entitling the holder to attend the congress of the union at Winchester and speak on the subject of the meeting regarding any questions brought up, and to assist in keeping the Constitution of the United States from being questioned.'"

STATE-OWNED BANK UNDER EXAMINATION.

FEARED DEFUNCT INSTITUTION UNLOADED WORTHLESS SECURITIES ON IT.

[BY A. P. NIGHT WIRE]

BISMARCK (N. D.) Oct. 6.—An examination of the Bank of North Dakota, the State-owned institution created by an act of the last Legislature, was begun here today by State Auditor Kostitzky upon formal instructions from Atty.-Gen. William Langer. Langer, in his letter to Kostitzky, stated that correspondence found in the Scandinavian-American State Bank of Fargo, which was ordered closed last Thursday, indicated that securities totaling more than \$200,000 had been transferred from the Fargo bank to the State institution.

FARGO (N. D.) Oct. 6.—President H. J. Hagan and Cashier P. H. Sherman of the Scandinavian-American Bank, closed last week on orders of the State Bank Commission, this afternoon waived preliminary examination and were bound over to the District Court. Each furnished \$2500 bail.

P. M. Halldarson, receiver of the bank, alleged that the officers exhibited to him a false statement as to the bank's condition when he made a regular examination on September 9, last.

Hagan left for Bismarck this evening to attend tomorrow's meeting of the State Guaranty Commission.

## KING IS OFF FOR SANTA BARBARA

Belgian Royalty Select Coast City for Their Sojourn.

Queen, Crown Prince Highly Entertained at Niagara.

Spend Today in Toledo as Brand Whitlock's Friends.

(BY A. P. NIGHT WIRE.)  
BUFFALO, Oct. 6.—King Albert and Queen Elizabeth of Belgium, with their son, the Duke of Brabant, and party, left here at 5:30 o'clock tonight for Toledo, O., the last definite stop they are scheduled to make on their trip to Santa Barbara, Cal.

The Queen of the Belgians was accompanied by the military escort of Niagara. The cordial semi-military greeting given the Belgian rulers by Buffalo was delightful to them, but it was the memory of the great falls Her Majesty will carry with her longest, and of which she exclaimed most often to those in her entourage.

King Albert, his consort and the Duke of Brabant, their son, came as near to playing this morning as royalty may come, and they revelled in the democratic freedom of the pilgrimages to Niagara Falls. They overstay by two hours the time allotted to them, and then were reluctant to leave. His Majesty was seeing the falls for the second time.

but he was manifestly happy at being able to show them to his wife. CROWN PRINCE ENJOYS IT.

As for the Crown Prince, he seemed to be having the time of his life. He lagged behind the servants of the household, and the King's valet, who were trailing at a respectful distance, and then skipped out of the path to run past them over the rock without a bit of royal precedence.

The royal party saw all there was to see and saw it thoroughly. To get in a more comprehensive view of the American side they crossed ahead into Canada for half an hour as the guests of the Dominion government. As a courtesy to the Canadians, the American officers attached to the Belgians stopped in the middle of the international bridge, where the Stars and Stripes and the Union Jack waved side by side.

They declined the invitation to cross into Ontario as that the reception committee headed by N. W. Rowell, president of the Privy Council and Secretary of State for External Affairs, might devote all their attention to their majesties. When the royal party returned to the middle of the bridge officers in American and Canadian uniforms, all veterans of the great war, saluted gravely and then shook hands with the King's party.

IN CAVE OF THE WINDS.  
Exploring the Cave of the Winds probably was the most thrilling experience Her Majesty has had since she left the battle lines when she served her people as devotedly as did their King. It was an event not on the program marked out in advance, and was the subject of an animated discussion at the royal breakfast table as the royal special neared Buffalo.

"I am going," the King announced calmly. The Queen declared that if His Majesty went she would, and Prince Leopold voiced an emphatic determination not to be left behind. It was the King's party, and they went.

They donned oilskins, just as have countless Americans. The King wore

a yellow jacket and brown overalls. It was intimated there were no yellow trousers long enough for him. When he was dressed the attendant who was helping him announced, with no thought of royal etiquette: "All right, King, you're ready," and His Majesty smiled.

Once well into the cave, the King stalked ahead. Gusts of wind blew showers of spray into the faces of every one in the party and the roar of the mighty cataract overhead was deafening.

The Queen expressed disappointment because there was no time to go through twice. "Marvelous," she exclaimed at each new view.

TAKE "WEDDING TRIP."  
After viewing Horseshoe Falls from Goat Island and visiting Three Sisters Island, the entire party donned oilskins again and took the sail in the Maid of the Mist, without which no wedding trip to the falls has been complete for a half century.

After this they crossed into Canada for their brief visit, driving through Victoria Park and then to the home of George Y. Grant, chairman of the Park Commission, where a brief reception was held. Upon the return to the American side the party was far behind its schedule, but the Belgians insisted upon taking a walk in the gorge trolley road that they might see the toiling, turbulent waters of the whirlpool rapids, dry then were they content to board their special to be brought to Buffalo.

GREETED BY VETERANS.  
The train was stopped at Terrace Station, and the party stepped from their car onto a landing platform which led to a temporary receiving station, where they were greeted by Mayor Buck and a committee of citizens. In the square opposite the station was a guard of honor, made up of hundreds of American soldiers, many of them wearing decorations for valor. They marched to review the train, the commander of Belgium's army.

The royal party then was taken to the home of Mrs. C. W. Good-

## SANTA BARBARANS PLANNING FOR KING

(BY A. P. NIGHT WIRE.)

SANTA BARBARA, Oct. 6.—Wild-boar hunting on Santa Cruz Island, seaplane flights, motely jaunts about the city, a banquet and other features are on the program to be tendered in honor of the visit of King Albert and Queen Elizabeth of Belgium and members of their suite on their arrival in this city.

Mayor H. T. Nielson received the first authentic information relative to King Albert's visit tonight from the Associated Press correspondent. He stated that committees will be named at once to formulate plans for the reception of the royal pair. It is believed here that King Albert's train will remain in Santa Barbara probably twenty-four hours or longer.

\*\*\*\*\*  
them for their stay in the city. Their Majesties were the guests of honor this evening, at an informal dinner at the Goodyear home. The party returned to the train, and three and a half hours later started for Toledo, which was to be the last definite stop on the trip to Santa Barbara, Cal. The train will be detrained at some quiet place during the night, and will not reach Toledo until noon. The monarchs will remain in the city an hour, but there will be no formal ceremonies. The royal party will visit Toledo as friends of Brand Whitlock, former Mayor of the city, rather than as the rulers of Belgium.

## EPISCOPALIANS SEEK A NEW DIVORCE CANON

WOULD FORBID MARRIAGE OF ALL PARTIES, SEPARATED FOR ANY CAUSE.

(BY A. P. NIGHT WIRE.)

DETROIT, Oct. 6.—Clergymen of the Episcopal church will be prohibited from officiating at the marriage of any person who has been divorced, if the general convention of the denomination to open here October 8 adopts the report of a joint commission of bishops, clergymen and laymen. The report, signed by the bishops of North Carolina, Chicago, Long Island, Lexington and Vermont, proposes a new canon, which reads: "No marriage shall be solemnized in this church between parties, either of whom has a husband or wife still living, who has been divorced for any cause arising after marriage."

Under the present canon law of the church, the innocent party to a divorce may be married by an Episcopal clergyman if the bishop after an examination of the court records and consultation with his legal adviser, gives his consent.

MISSIONS.  
The Protestant Episcopal church of America will spend in foreign and domestic missions, during 1918, \$1,215,000 more than it did in 1917, according to the report of the board of missions which met here today at the triennial general convention opening Wednesday, are adopted. The board recommended a total budget for mission work of \$2,242,749.

So it will be unnecessary for the bishops to rely upon donations to finance their work, the board will underwrite the budget for domestic missions, recommending an appropriation of \$555,000, an increase of \$65,000. A budget of \$24,000 for Americanization work was also adopted.

immigrants also was decided upon. The board estimated that it will cost in 1920 \$250,000 to meet the situation in China.

NEW DIOCESE.  
Creation of a new diocese in the Panama Canal Zone, to include Haiti, and election of a bishop in charge were also recommended. Other recommendations included appointment of a special commission to inspect and report on conditions confronting the church in Mexico, and co-operation of the church in the inter-church world movement in North America.

The board will conclude its meetings tomorrow.

PACKERS FIGHTING CUT IN BY-PRODUCT PRICES.  
CLAIM IS MADE THAT ALL OF PROFITS ARE CREDITED TO BEEF ACCOUNTS.

(EXCLUSIVE DISPATCH.)  
WASHINGTON, Oct. 6.—Adoption of the Department of Agriculture's proposal to arbitrarily reduce the price of packing-house by-products entering into the manufacture of fertilizers would only result in an added price burden being placed on consumers of meat, according to witnesses who testified today before a departmental hearing on the proposal.

Witnesses agreed that all packing-houses credit whatever profits are made from by-products to beef accounts; thus enabling packers to sell dressed beef at a price much lower than they pay for the live animal. It follows that if the packers produce such things as dried blood and tankage at a smaller margin of profit or at a loss, the beef account is bound to suffer. Among the witnesses who appeared at the hearing, conducted by the bureau of soils, were R. C. Gould, secretary of the Institute of American Packers, and L. H. D. Weld, chief statistician of Swift & Co., "No packer," said Mr. Gould, "makes one cent of actual profit on by-products entering into the manufacture of fertilizer. The price of beef sets the credit of any profit."

Mr. Weld testified that if the department's proposed plan went into effect it would mean a loss of 20 cents in every animal slaughtered, and that such a figure was bound to be reflected in the price paid for live stock. He protested against the proposed procedure on the ground that such a price-fixing would establish a dangerous precedent, and that the department might as well undertake to fix the price on dressed beef and also products as on dried blood and tankage. The department proposes to reduce the price of dried blood from \$1.50 to \$1.40, and tankage from \$0.50 to \$0.40. Its authority is derived from a proclamation issued by the President and a law passed as a war emergency measure.

## SCHERER URGES "AMERICA FIRST"

Head of Throop College Talks to School Assembly.

State Meeting of Good Templars Opens at Pasadena.

Author Suggests All Help Build Greek Theater.

[LOCAL CORRESPONDENCE.]

PASADENA, Oct. 6.—"America First" was the keynote of the address by James A. B. Scherer, president of Throop College of Technology, at the first formal assembly of the fall term of the college here today.

The total enrollment at the college is 121, the largest in the history of the school.

Scherer, president of the college, the speakers included Prof. Clinton K. Kelly, professor of English, who delivered an address in behalf of the military and naval forces, both officers and students. Physical Director Raymond F. Call and Capt. Paul Perigord, formerly of the French army, were new members of the faculty.

The speakers followed by Ernest H. Swift, University of Virginia; Paul D. Barlow, University of Oklahoma; Elbridge A. Goodhue, University of Wisconsin; R. Carson Smith, Oc-

cidental College; R. Milton Bosworth, Reed College; J. Ray Wilson, Reed College. New faculty members, Robert L. Daugherty, professor of mechanical and hydraulic engineering; A. B. and M. E. Stanford; Francis W. Maxstadt, instructor in mechanical engineering; M. E. Cornell; George R. Parks, instructor in chemistry; Ph. D. University of California; Delwin H. Silvius, instructor in scientific German; A. M. Harvard; George Forester, assistant professor of electrical engineering; E. E. Lehigh University; David H. Ray, assistant professor of mechanics; B. A. College of the City of New York; C. E. and S. C. D., New York University; Capt. August M. Engel, engineer, U.S.A., professor of military science and tactics; J. R. Robson, Y.M.C.A. secretary, B. A. University of Southern California.

DRY ARE ARRIVING. Prominent "dry" men from all parts of the State are arriving in Pasadena for the fifty-ninth annual session of the California Grand Lodge of Good Templars, which will open tomorrow for three days. The meetings will be held in the Macabees Auditorium, at Colorado street and Raymond avenue. W. K. Jettis of Pasadena, Chief Templar of the grand lodge, will preside.

CALL FOR PAMPAS PLUMES. The Tournament of Roses Association today issued an appeal to all citizens of Pasadena and vicinity to gather pampas plumes now in preparation for the New Year's Day tournament. The plumes are gathered now and kept until the tournament is held, as they are in better condition now for decorative purposes than they will be later in the season.

SUGGESTS ALL TAKE HAND. Dr. George Wharton James, well-known California lecturer and writer, who lives here, has made the suggestion that all citizens of Pas-

adena don overalls or their equivalent and build the proposed new Greek theater. Dr. James suggests that the ministers work one day, the bankers another, the merchants another, school children another, and so on. The idea has been variously received by the citizens. Some hail it as a fine plan; others believe the city should be bonded and the theater constructed by expert artisans.

FRANCE IS GRATEFUL. "In the deep heart of France is lasting gratitude to the United States for coming to her assistance in the great war," said Capt. Paul Perigord, late of the French high commission to the United States, one of the heroes of Verdun and now a member of Throop College faculty, who was the principal speaker at the luncheon at the Hotel Maryland this noon of the Women's Civic League. The luncheon marked the opening of the season for this well-known Pasadena women's organization. Mrs. Louis H. Mitchell presided.

Right here in Pasadena—ten floors of new furniture at attractive prices. Pasadena Furniture Company.—[Advertisement.]

AFTER BOOTLEGGERS. Venice Chief Employs New Plain Clothes Men.

[LOCAL CORRESPONDENCE.] VENICE, Oct. 6.—The bootleggers must go.

Thus declared Chief of Police Loomis today, when he made it known he had obtained the services of several out-of-town plain clothes men to assist local officers. Recent investigation gave cause to believe that the liquor laws are being violated and that outside detection is needed to get proper evidence upon which to base prosecutions.

## PLEADS FOR PATRIOTISM.

President of Throop College Delivers a Thrilling Address to Students.

At the first formal assembly held at the Throop College of Technology at Pasadena yesterday morning, President James A. B. Scherer sounded the keynote which sets forth new standards brought about by the recent war, and made a strong plea for American principles to be applied to all walks of life.

In part, he said: "You have been giving different reasons why you came to Throop. I hope there is one reason in which we all can agree: to put America first. In the peace that lies ahead, as in the war that has just gone by, 'You made a great record for your college in that war. Last spring a man and his wife who never had helped us before came into my office and gave Throop College \$25,000 in cash, without any strings to it. They said they did it because America is first with them, and that they had watched the way you had served the nation, and had concluded they could no better serve the nation themselves than by aiding in the training of Throop men. Your college was a leader in the work of preparedness before war came. After war came it led all the colleges of the country in concentrated devotion to war work, according to the Bureau of Education. Now that war is over, you who were in our military camp are back again, joined by twenty-eight associates who went to other parts of service on this side of the world, by nine more who actually fought overseas; in all more than 300 strong. I want to remind you that peace has to win its victories, as well as war, and that if America was worthy dying for yesterday, America needs you to live for her today and tomorrow, and to live for her with all your heart and mind and soul."

This is not Chauvinism or jingoism at all. We are best beyond other nations because of the divine ideal embodied in our national charter and incarnate in our national leaders, such as Washington and Lincoln. We stand for liberty as made possible by law.

That is the only way you can have liberty.

VIRTUE HAS COUNTERFEITS. "Let me remind you of a curious fact, that every virtue apparently has its counterfeit, which is invariably vicious. Bravery is the essential virtue of manhood, but its counterfeit is bravado, the bravado of the bully, which may even degenerate into malignant brutality. At the other extreme, the gentleness of a gentleman is certainly a virtue, but who likes effeminacy? Neatness has its counterfeit in foppishness, economy in stinginess, culture in pedantry, devotion in cant, enthusiasm in rant, purity in prudery, humility in servility, love in lust, and unselfish patriotism in self-seeking 'politics.' And, just as the vicious counterfeit of law is tyranny, so the counterfeit of liberty is license, which means, 'every fellow for himself.'"

"Suppose" Pershing's and Sim's men had not known the difference between liberty and license—the liberties of the world could not have been maintained. Our doughboys and sailors submitted to the rigid law of military discipline, they even surrendered their personal liberties to their commanders, whose word for the time was their law. Just as our national liberty has been won by

submission to the authority of Washington, so now the liberties of the world have been for the moment saved through voluntary submission to incarnate law. And in time of peace it is quite as essential that we submit to law, if true liberty is to be maintained, as it was only now it is not incarnate in a military leader, but embodied in our State and national constitutions.

POINTS TO OMAHA. "I speak of this matter because law needs very special emphasis at this time, when liberty is degenerating into widespread license. Look at Omaha: the mob going further than any American mob ever went before—not only lynching their victims, but destroying the jail and Court-house, and actually attempting to lynch the Mayor for his mere remonstrance in behalf of the law! Those who palliate this particular offense charge lawlessness as the occasion of the mob's outbreak, so that in any case Omaha illustrates what I mean. And Omaha is merely the extreme fruition of seed that is being sown everywhere just at present. If America is to be preserved in all her boundless promise, the price of liberty must be the price of immediate remembrance of the axiom that 'eternal vigilance is the price of liberty.' We must double our vigilance at this hour when our institutions are passing through an extreme crisis."

OFFERS CREED. "I am going to offer you a creed for the coming year. It was prepared and adopted a fortnight ago by the Pasadena post of the American Legion. I hope that every one of you who is eligible will get into the American Legion, which, 4,000,000 strong, can be an insupportable power for making America what, under God, it ought to be. And I could have no dearer wish than that every member of Throop College, whether eligible to the legion or not, should accept this creed, because I believe that that is the very best way, at this time, to put America first."

"Believing that the principles laid down in the Constitution of the United States guarantee to every man and woman under the Stars and Stripes the largest measure of liberty and justice compatible with a stable government, be it resolved by the Pasadena post of the American Legion:

"That we at all times, under all circumstances and at whatever risk, uphold and defend the Constitution of the United States. "That we will attack the red flag wherever it may be raised, and pledge ourselves to uphold the splendid ideals for which 50,000 men died in France. "That we will help the legally constituted authorities of the city, State and nation to maintain law and order, and that we are opposed to all lawlessness, violence and disorder, under whatever guise it may present itself. "That we condemn strikes on the part of firemen, policemen and all employees of the State and municipality to whom are committed the protection of life and the maintenance of law for the whole people."

WORTH WHILE TALKS AT WOMEN'S MEETING. CLUB OPENING OCCASION FOR MANY INTERESTING ADDRESSES.

[LOCAL CORRESPONDENCE.] SANTA MONICA, Oct. 6.—Urging upon the members of the Santa Monica Bay Women's Club the vital necessity of women gaining a world view point and of touching fingers with the "throbbing forces of international reconstruction," Mrs. J. B. Lorbear, president of the club, presented what was said to be one of the most masterly opening speeches ever delivered to that organization.

Mayor S. L. Berkley of Santa Monica, one of the principal speakers, depicted the widening scope of the work of women's clubs.

"The Art of Being Human" was the text of an address by Mrs. J. C. Uricus, prominent in the work of the organization of Southern California.

Tom Finch, at one time a writer for The Times, and a pioneer of Santa Monica, spoke in appreciation of the accomplishments of the club. Mrs. Fred Taft, federation secretary, drew long applause with her address on "Federation."

Talks were made by chairmen of the leading sections of the club and H. L. Hall of the Santa Monica Beach Association urged for the cooperation of the women of the city in the plan for a new hotel.

TWO BOYS LEAVE HOME. Worried Mothers Wink News of Lads Who Have Run Away.

Edward Petty, 15 years of age, is sought by his mother, Mrs. C. E. Petty of 2643 West Vernon street, who is ill and asks her son to send a telegram as to his whereabouts and if he is well. Edward, a student at Jefferson High School, and his chum, Robert Henderson, also 15, son of Mr. and Mrs. F. C. Henderson of Walnut drive, last Wednesday, packed up their belongings, including their high school cadet khaki suits, and started off to see the world. The parents of both say that if the lads are determined to pick fruit or work in moving pictures, they can do so, but they ask the boys to let their worried mothers know where they are and what they are doing.

LABOR CONVENTION. State Federation of Labor in Annual Session at Bakersfield.

[BY A. F. NIGHT WIRE.] BAKERSFIELD, Oct. 6.—The twentieth annual convention of the State Federation of Labor opened in the Labor Temple here today with 250 delegates in attendance. The morning business session was devoted to speeches of welcome by representatives of the city and county governments, the Chamber of Commerce and the County Board of Trade, the report of the credentials committee, accompanied by the official seating of the delegates in the convention, and the appointment by President Daniel C. Murphy of various business committees.

R. L. Rinker, president of the Kern County Labor Council, acted as temporary chairman during the speechmaking, after which Daniel Murphy took the chair and conducted the morning's business. Following the meeting, which was adjourned until 2 p. m. tomorrow, the delegates enjoyed a motor tour through the Edison orange groves and the Kern River orange fields.

## NEW INDUSTRY TO BOOM CHINO.

CHICAGO PACKERS ARRANGE TO BUILD \$2,000,000 PLANT.

[LOCAL CORRESPONDENCE.] CHINO, Oct. 6.—Work is expected to start in the manufacture on the new \$2,000,000 packing and canning plant for Libby, McNeil and Libby of Chicago, adjoining the cannery of the Chino Canning Company, which was recently acquired by the Chicago concern. Preliminary plans have been completed, the work of vacating several streets and alleys, an action which was ordered by the Board of Trustees following the request of Libby, McNeil &amp; Libby, is going forward rapidly, and the transfer of a large block of land adjoining the Southern Pacific tracks is being arranged. As soon as these negotiations are complete, it is said the packing company will start its improvements. The effect of this large enterprise coming to Chino has been to stir the entire community with new life, and it is expected that considerable home building will result when the big packing plant construction is under way. Chino, as the center of a growing dairy and live-stock section, is regarded by the packing company as an admirable location for the new enterprise.

SANTA ANA LICENSES. [LOCAL CORRESPONDENCE.] SANTA ANA, Oct. 6.—Marriage licenses here: Turner Ashby Olmstead, 24, and Barbara Elwell, 24, both Long Beach; Frank A. Hunt, 22, and Hattie E. Lavelle, 21, both Santa Ana; George H. Wright, 28, Phoenix, Ariz., and Janelle Schulte, 22, El Paso; Magalie Miller, 21, and Eddie M. Palmer, 24, both Los Angeles; Glen Harry Clifford, 25, and Ethel May Graham, 23, both Phoenix, Ariz.

Wholesale piano prices going up. Retail prices away down at Bartlett Music Co., 410 West Seventh. Our object: To sell 710 pianos again in October.

Built Like a Skyscraper.

Climb up to the top! A Shaw-Walker file is as good as a skyscraper. And here's nothing in a Shaw-Walker file worth less or more away. (From actual photograph.)

SHAW-WALKER STEEL LETTER FILES

DO you know why there's nothing to work loose or give way in a Shaw-Walker?

Because after it has been "Built Like a Skyscraper," the Shaw-Walker File is electric-welded into one solid piece of steel. No nuts—bolts—rivets—rods—screws.

Drawers smooth-coasting and speedy—no matter how heavily loaded. And they don't rebound.

Compare a Shaw-Walker with your present equipment. See why we can give our famous money-back guarantee.

Phone for a Shaw-Walker today.

WOOD FILES

Shaw-Walker also manufactures a complete line of filing cabinets in wood; as well as supplies for all files.

## "What about the New Light Six Cylinder Car to be Built by the Willys Corporation?"

The public offering of the preferred stock of the Willys Corporation has caused thousands of inquiries from the automobile buying public, automobile dealers and others in regard to the new car which the new Willys Corporation will build in its recently acquired Duesenberg plant, at Elizabeth, N. J. The Company is not just at present ready to make a complete announcement of the new car, but this much can be said about it:

OUT of an experience embracing the manufacturing and sale of over 650,000 automobiles, John N. Willys saw the great need of an absolutely new type of car to fill a vast and unoccupied field.

Experience has proved the efficiency for automobile purposes of the six cylinder unit motor. Engineering and manufacturing restrictions have placed a price upon six cylinder cars which have denied them to thousands of people. Expense of upkeep has placed a further barrier against popular ownership.

New principles of construction, and new achievements in manufacturing have now overcome these obstacles.

The new car will make ownership of an attractive, efficient Six a reality to many thousands of families and individuals.

The New Six has demonstrated its efficiency, economy and slow depreciation. For more than two years the mechanical details of this car have been proved out under exacting and grilling road test conditions, covering over 200,000 miles and embracing all manners of loads, roadbeds and weathers.

The weight of the car is approximately 2,100 pounds—which, with new efficiency of the engine, produce outstanding economies of gasoline, oil and tires.

On repeated and continuous tests it has maintained from 17 to 20 miles per gallon of gasoline.

A new principle of spring suspension gives the new Six the riding ease of a car with 142-inch wheel base—while the actual wheel base is only 112 inches.

The new spring suspension also prevents side swaying and enables the wheels to "hug the roadbed"—a great factor for safety and easy riding. These easy riding, easy handling qualities will also greatly prolong the usefulness of the new car and reduce upkeep.

Advanced principles of construction, here only hinted at, effect many economies of manufacture. Production in great quantities will further reduce cost of manufacture of this economic light weight Six.

In addition to the manufacture of the new Six, the Willys Corporation embraces the Electric-Auto-Lite business, including the Willys Light farm and house lighting business and the New Process Gear business.

The Electric Auto-Lite is, in itself, one of the great industries of the country. The plant is at Toledo, O. It builds electric starting and lighting systems. More than 1,400,000 sets have been sold. Orders and specifications are on hand for 4,600 outfits per day. The size of the field occupied by the Willys Light farm and country home electric lighting systems, operated by the Willys Knight motor, may be indicated by the fact that more than 20,000 of these units were ordered during the month of August alone. The FIAT plant at Poughkeepsie, N. Y., is utilized by the Auto-Lite unit of the company.

The New Process Gear business is another great industry, occupying a large plant at Syracuse, N. Y. Many types of gears for automobile transmission and differentials are manufactured. The corporation is one of the largest manufacturers of gears in the country.

All of these plants are sources of supplies for the new car production.

The Duesenberg plant at Elizabeth, N. J., is one of the best equipped motor manufacturing plants in the country and was greatly enlarged for the production of motors for war purposes. The plant is being enlarged to many times its former capacity to meet needs of production in quantities of the New Six.

Anyone desiring further information about the plans and the new car program of the Willys Corporation should write for our booklet.

## EXHUMES BODY IN DEATH CASE

**Accident Commission Cuts  
New Legal Ground Here.**

*Orders Autopsy in Connection  
with Widow's Claim.*

*Is First Time Such Action has  
been Taken.*

Ordering the exhumation of the body of James A. English of Pasadena, who died September 11, that the cause of death might be ascertained in connection with the widow's claim against the State Insurance Fund, the State Insurance Accident Commission has turned new earth in legal procedure in this State.

The body of Mr. English was exhumed Friday from the grave in the Hollywood cemetery. The autopsy performed, the first ever ordered by the Accident Commission, was made by Dr. J. W. H. Smith of Pasadena Ice Company, and his wife contended, in a claim filed with the State Insurance Fund, to which the employees of the ice company are protected, that her husband died of a heart attack while making a cake of ice. The State Insurance Fund commissioners asked the Insurance Accident Fund, to which the commission to investigate the claim, was decided that only by exhumation could the cause of death be determined. The Coroner and the

was an exhumation permit, on the ground that the offices are justified from accident or violence, and that these are the only two grounds which justify the offices as justified in issuing a permit. The Industrial Accident Commission at San Francisco has been notified by the coroner directed that the body be exhumed. The order for exhumation was accepted by the coroner.

The autopsy was performed by Dr. J. J. Collins French in the presence of the coroner, representing the state Insurance Fund and the Industrial Accident Commission. The coroner is satisfied that the widow, Dr. French stated last evening that while he found the body cold, he found no evidence that he was caused by heavy lifting. The report will be forwarded to the fund commission, and payment of the insurance money will be made to the widow. The Industrial Accident Commission here may be directed to pay the widow's application for insurance is decided.

## Shamrock IV to Compete for the 1921 Cup.

GLEASON ALIBIS  
SOX DOWNFALL.Chicago Manager Says His  
Men Play Like Kids.Form that Won Pennant in  
A. L. Myth of Past.Moran Says Reds One of  
Greatest Teams.BY JAMES CHURCHILL.  
(EXCLUSIVE DISPATCH.)  
CHICAGO, Oct. 6.—They aren't  
hitting.

Those few words spoken by Manager Gleason of the White Sox offered an explanation for the defeat of the South Stars by the Cincinnati Reds. They got three hits off Ed Miller and never once in the whole game had a good chance to score a run.

"I don't know what's the matter," the Sox leader continued, "but I do know that something is wrong with my gang. The bunch I had fighting in August for the pennant would have trimmed this Cincinnati bunch without a struggle. The bunch I have now couldn't beat a high school team. We hit something over .100 for the season in the American League pennant race. Now that's the best hitting any ball club ever did in the history of baseball. The way those .100 hitters acted against Miller, they couldn't make a place on a high school team."

GLEASON DISAPPOINTED.  
"I am convinced that I have the best ball club that ever was put together. I certainly have been disappointed in it in this series. It hasn't played baseball in a single game. There's only a bare chance they can win now. The gang I had in August might do it. The gang that has played for me in the five games of the world's series will have to have luck to win another ball game."

While the White Sox manager was talking it was easy to see he was terribly riled up.

"You know," he spoke up, "it doesn't seem possible that this gang that worked so great for me all summer could fall down like this. I tell you, I am absolutely sick at heart. They haven't played any baseball for me. I thought all of them were my boys. I felt like a school-teacher might feel toward his pupils. I loved these boys for the way they fought for me this summer."

DIDN'T NEED HELP.  
"No one could out in and try to help me win this series. I don't mean that no one couldn't have given me some pointers. I mean that I wouldn't let any guy in the world out into things the way I had them going. I didn't need any help. Those fellows were right around me like a lot of kids all summer and I would have staked my life that they would have gone through for me in the world's series.

"But they aren't playing baseball. Not the kind we played all summer. If they had the Sox would just about have the world's championship clinched by this time. Something has happened to my gang. If they would just play baseball for me the rest of the series they might even pull it out yet. The team I had most of the time all summer would do it. I haven't had that

MOORE TO FIGHT  
BANTAM CHAMP.

DENVER, Oct. 6.—Pal Moore, the Memphis bantam, will meet Pete Herman, bantamweight champion of the world, in New Orleans on Thanksgiving Day, according to information received here today from Tommy Walsh, Moore's manager.

Walsh also announced that he has a verbal agreement with Herman that if the latter still has the title after the New Orleans fight he will meet Joe Burman for the championship at Denver in January.

\*\*\*\*\*  
same team on the ball field in a single game."

Regardless of what the South Side manager thinks about his team there was one fellow in the game that was in August form and that was Ray Schalk, who was put out of the battle in the sixth inning for protesting to Umpire Risher when he pronounced Groh safe at the plate. From the press stand it looked as if Schalk might have missed tagging Heinie as he slid in and that Risher was right in his decision.

Anyway, Ray raised an awful holler, but Ray feels about this world's series just like Boss Gleason does, and his tantrum over this play might have been caused by things in general. It was apparent that Schalk was so wrought up that he was ready to tackle Jack Dempsey or anybody.

Of course, Manager Moran of the Reds was all smiles. They didn't think I had a great ball team," he said, "but I guess now everybody thinks I have. I have sent five different pitchers to the slab in five games and four of them have won and the one that lost didn't lose because of his pitching."

SOX ARE EASY  
FOR RED LEGS.

(Continued from First Page.)

scored Rath and Groh. Duncan hit a fly to short left, and Jackson hurried the ball home a couple of yards ahead of Roush, who raced in from third after the catch. The hop was perfect except a little wide of the plate, but Lynn muffed the peg and Roush scored.

With Mayer pitching in the sixth, Roush opened with a roller which Collins muffed close to second base and the runner was safe. Duncan walked, Kopf sacrificed and Roush tore home with the fifth run while Risher was throwing out Neale at first.

LIEBHOLD WALKED.  
The Sox started as if they meant business. Liebhold led with a walk in the home first. He reached second on Collins's out and made third when a bouncer by Weaver carried off Miller's mitt for a scratch hit. Of this opening the locals took no advantage. Jackson and Felsch popped out.

In the next two rounds six men in succession struck out, and the only other possible chance the White Sox had to score a run came in the ninth. Two were gone in the last half when Weaver caught one for a three-bagger. Kopf threw out Jackson.

LIPTON ISSUES  
CUP CHALLENGE.Names Shamrock IV as Yacht  
to Meet American.United States Committee to  
Reply to Defi.English Racer at Bermuda  
During War.

NEW YORK, Oct. 6.—Formal announcement of the receipt of a challenge for the America's cup from the Royal Ulster Yacht Club of Belfast, Ireland, was made today by Secretary George A. Cormack of the New York Yacht Club.

The challenge was forwarded in behalf of Sir Thomas Lipton, who named the Shamrock IV as the yacht to be used in the races of 1920. No answer has as yet been made by the New York Yacht Club, but a favorable reply is generally expected.

Sir Thomas inaugurated his fourth attempt to lift the America's cup in 1913, with a challenge for a race the following year. The challenge was accepted, and the challenging yacht, Shamrock IV, was on route to this country under its own sails when war was declared. Shamrock IV put into Bermuda and later reached this port after the danger of capture by German ships had passed.

With the beginning of the world war the international yacht race was abandoned, and the Shamrock IV was placed in dry dock in Erie Basin. The American yachts Resolute and Vanitie were also withdrawn from the races the following season. All are reported to be in an excellent state of preservation, and will be ready for competition after the usual overhauling.

Last December Sir Thomas renewed his challenge through the Royal Ulster Yacht Club for a series of races to be held this autumn, but the New York Yacht Club asked that it be withdrawn or held in abeyance for at least a year, in view of the uncertain outlook existing at that time. Sir Thomas acquiesced.

The America's cup committee, which will reply to the latest challenge, consists of Lewis Ledyard, E. D. Morgan, C. O. Iselin, W. B. Duncan, C. L. Blair, D. E. Pratt and Granville Kane.

DEL MONTE TO MEET  
SAN MATEO AT POLO.

(SPECIAL CORRESPONDENCE.)  
DEL MONTE (Cal.) Oct. 6.—Following the close of the successful summer polo season here, there will be some activities among the devotees of the exciting sport on horseback at the San Mateo field this coming Sunday. Del Monte is to put a strong team in the field against San Mateo. Eric Padley, Hugh Drury, Felton Elkins and Col. Nutting, who is a six-goal man from England, will be among the players who will leave here to get into the fray.

Polo has been successfully revived after being dormant during the war and the play at Del Monte all during the spring and summer months was some of the best ever seen here. Plans are being outlined already for a banner season of the sport in 1920.

AMERICAN BOXER  
BEATS BRITISHER.

(BY A. P. NIGHT WIRE.)  
PHILADELPHIA, Oct. 6.—Willie Jackson, New York lightweight, knocked out Eddie Morgan of England in the fourth round of a scheduled six-round bout here tonight.

Jackson showed his superiority from the start and at the end of the third round he had the English boxer hanging over the ropes, the bell probably saving him. In the next round a hard left to the stomach, followed by a right to the jaw, sent him down for the count.

ST. PAULS HERE  
THIS MORNING.

(Continued from First Page.)

a portend of future victory as it were. And as a consequence of the dexterous behavior of the trained dollar, Vernon will go to bat last tomorrow, home rules will govern and the spitter will rise up to confound the victors.

REQUIRE WORK.  
Removing the Sabbath debris so that the decks might be cleared for the saints required a lot of hard work and much muck-raking. Not until it came time to renovate the grounds was it realized what great quantities of liquid and solid nutriment 22,000 fans can consume in the course of one double-header. But the trouble is that they do not consume the shells, either of the peanuts or the soda pop. They left something like twelve truck loads of fragments scattered about the arena. There were bottles, bottles everywhere, and not a drop to drink, and the rising sun yesterday found the park looking like the explosion of a large soda works which had blown all the liquid out of the bottles but left the walls standing.

The exact amount of stuff, which the bugs took into their glided insides, has not yet been computed, but they got away with nearly half a ton of peanuts, hot dogs in proportion and ice cream beyond conception. The amount of stuff slowly disappearing down the throats of the bugs and lodging in their stomachs.

BROWNE BUST.  
Browne also peddled more than a hundred gallons of the stuff, and grew so greedy for making change that he quit in the eighth round. Casey Castleman, the concession magnate, was found last night completely surrounded by tall piles of dimes and nickels and still counting.

Because of the inability of First Baseman Dressen to accompany the team, Kelley recruited First Baseman Hyatt from the Toledo club with the consent of the owners. By this change, St. Paul loses some speed, but offsets this in a measure with additional hitting strength. Dressen with forty-three stolen bases topped the association on the paths. However, he hit only .269 as against Hyatt's mark of .328.

St. Paul has counted 731 runs, has acquired 268 stolen bases and 573 bases on balls.

## BIG SERIES NOTES.

(BY A. P. NIGHT WIRE.)  
CHICAGO, Oct. 6.—The total attendance for the five games was 158,069. The attendance for the three Chicago games was 97,868.

One of the Cincinnati rotters sitting along the first-base line caught a foul ball in a big megaphone and appropriated it for a souvenir.

Balls batted into the grand stand never came back, as the fans scrambled to pocket them.

The teams left at 10 o'clock tonight for Cincinnati, where the sixth and perhaps the final game of the series is scheduled for tomorrow. If a seventh game is necessary, it will be played in Cincinnati Wednesday.

The Reds were in a hilarious frame of mind after the game. They slapped each other on the back, yelling that tomorrow's game would find them baseball champions of the world.

Twelve special trains were required to transport the baseball players, newspaper men and fans to Cincinnati tonight.

Kid Gleason still wears his cap on the side of his head, but he wasn't much in evidence in the coaching line today. Moran, however, coached his players from the first-base line.

Eddie Murphy, the Sox pinch hitter, had a chance again today, but he fanned. He is participating in his fourth world's series, and will draw a player's share of the receipts for going to bat twice so far in the series, plus whatever else he may do in the remaining games.

When the Sox got two men on base in the first, while out, Manager Moran sent Luque, the Cuban pitcher, to warm up. But Eller came through with strong efforts, and pitched record-breaking ball.

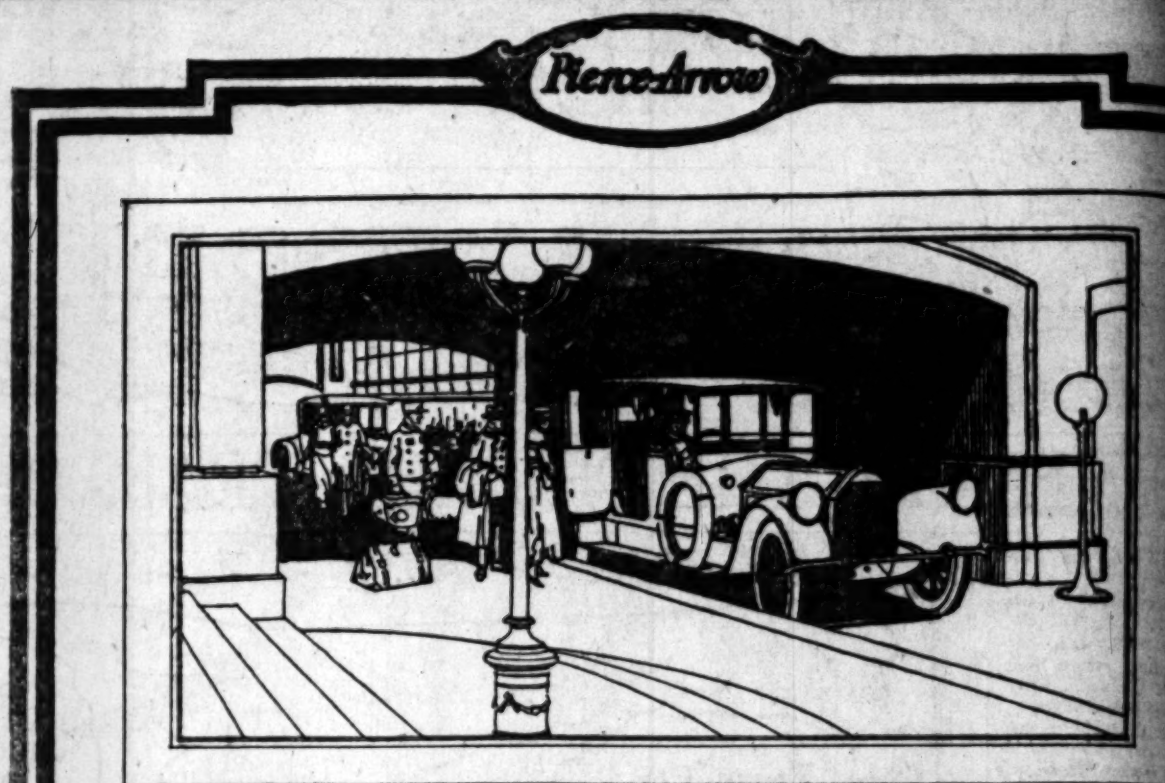

Even the Chicago players applauded Eller when he returned to the bench after setting a world's series strike-out record of six in a row.

The crowd gave Eller a great ovation when he came to bat in the sixth. He connected with a double that started the Reds to victory. He fanned the next time up.

The crowd of 34,375 was the biggest of the series. There were thirteen more persons jammed into the park than on Saturday. Every inch of space was occupied, and thousands were turned away. Spectators got as much as \$16 for a box seat.

Eller retired the Sox on five pitched balls in the sixth. Larry Kopf, the Sox's shortstop, hit first hit of the game for Cincinnati in the sixth. He singled to right.

Buck Weaver, the Sox third baseman, staged a batting rally all by himself in the ninth with two out. His triple was the only long hit the Sox made.

## PIERCE-ARROW

ABOUT every Pierce-Arrow Car there is an atmosphere of distinction which has nothing to do with workmanship, or machinery, or materials, but which is rather the fine realization of a definite conception, an ideal of a car successfully and consistently carried out.

William E. Bush  
1701-1711 So. Grand Ave.  
Los Angeles, Cal.

IN SAN FRANCISCO.

San Francisco has forty-four amateur and semi-professional baseball teams enrolled for the midwinter matches which will start October 11.

RACES POSTPONED.  
LEXINGTON (Ky.) Oct. 6.—The

Grand Circuit trots were called off here today, because of heavy rain Sunday and last night. It has not been decided whether the two days' programme will be consolidated, or the closing date moved up a day.

BARRY SCULLERY  
Ernest Barry, who

sculling champion, defended his world title at the Thames championships in London last night. He won by a wide margin.

## They invented it

YANKS have made the world safe for democracy.

For example, what a beautiful picture of democracy we see above!

One man is hanging a picture of his ancestor. He is an aristocrat. He is handing a YANK to the other man.

The other man has no ancestors. He hasn't even a stepladder. He is a mere pedestrian.

Yet they have something in common—YANKS cigarettes.

YANKS are smoked by men in palaces and by men with shovels. YANKS smoke smooth. They taste rich. They leave no scars. They have cork tips. Price? Absurd. 20 for 18 cents.

"You'd Never  
Think it Was the  
Same Bathroom"

A NEW bathroom with pure white fixtures of vitreous china costs less to maintain, because repairs are seldom necessary. And when you consider that old fixtures can be replaced with little or no trouble, you simply can't afford not to own a modern bathroom.

See our display of Thomas Maddock's modern, sanitary plumbing fixtures. We know of none better; we believe there are few as good.

# CAN DOLL HOOK IT ON GEORGE?

Mike to Try for Knockout at Doyle Tonight.

"Young Dynamo" Expects to Have Tough Battle.

Cliff Jordan-Johnny Celmar in Semi-Windup.

## TONIGHT'S CARD.

Young George vs. Mike Doll, 145 pounds.  
Cliff Jordan vs. Johnny Celmar, 155 pounds.  
Henry Gasline vs. Gus Williams, 135 pounds.  
Billy Wilson vs. Paul Brewster, 145 pounds.  
Louie Garcia vs. Joe Miller, 125 pounds.  
Red Brennan vs. Ray Booker, 115 pounds.

Cleveness will be sidetracked and slugging will predominate in the bouts at the Vernon arena tonight. The big attraction on the card is the main event in which Young George will battle Mike Doll. The latter is the only boxer who holds a decision over the sensational youngster. In two bouts Doll succeeded in getting away with a draw the first time out and on the second mixup, he took the decision after four rounds of mugging.

Doll is one of the most willing mixers that ever appeared in the local ring and figures to give George the toughest sort of a fight. Win or lose he should put up a battle.

The semi-windup will be between Cliff Jordan and Johnny Celmar. The boys have met once before, Jordan taking a close decision after a tough fight.

Another slam bang affair is the Billy Wilson-Paul Brewster bout. The latter is a favorite at the shipyards and packs a real wallop.

Henry Gasline is matched with Gus Williams. The sluggers have met before with little to choose between them.

Louie Garcia is matched with Joe Miller and "Red" Brennan will take on Ray Booker. Harry Lee and Frank Holbrooke will referee.

## CONTINENTAL AIR RACE STARTS FROM WEST.

BIG ARMY AERIAL FLIGHT WITH MANY ENTRANTS BEGINS TOMORROW.

(BY A. F. HIGHT WIRE.)  
MINNEAPOLIS (N. Y.) Oct. 6.—Major Gen. Thomas H. Barry, chief of the army air service, will act as the official starter of the transcontinental army air race, which starts from here Wednesday morning. Brig. Gen. Mitchell, chief of the training and operations group of the air service, and commanders of all aviation fields within a radius of 200 miles also are expected to attend.

An incomplete entry list, published today, indicated that eighty machines would start, sixty-four from Minnecola and sixteen from San Francisco. The first Minnecola entrant is not expected to reach San Francisco before next Monday.

SAN FRANCISCO, Oct. 6.—A complete list of pilots to participate in the army's transcontinental flight from San Francisco to Minnecola Field, beginning Wednesday morning, was announced here today. They are as follows:

From Rockwell Field, San Diego: Cadet Andrew J. Naumov, Sergt. G. M. Robinson, observer; Lieut. Spence Hall, Lieut. William B. Ryan, observer; Lieut. H. E. Queen, Mechanic Lee E. Bishop, observer; Lieut. G. E. Rice, Maj. J. P. Bartholomew, Lieut. J. C. Hall, Floyd B. Moon, observer; Lieut. V. Stier, First Lieutenant J. P. Reichter, J. B. Patrick, observer; Cadet J. H. Cardiff, from Eugene, Ore.; Lieut. William Goldsborough, Lieut. Edward V. Wales, observer.

From Red Bluff, Cal.: Lieut. E. C. Kiel, Sergt. Frank McKee, observer.

From Fresno, Cal.: Lieut. Robert Kauch, Lieut. Warren A. Maxwell, observer.

From Mather Field: Capt. L. H. Smith, F. W. Ruggles, observer; Lieut. Worthington.

From San Francisco: Maj. Carl Spatz, Sergt. Emmet Tanner, observer.

The flyers expect to reach Minnecola Field, New York, Friday night. They will take the same route as another transcontinental air fleet which will leave Minnecola Field on the same day. The first plane is scheduled to leave here at 6 a.m. Captured German Fokkers, De Havilland and Rhebaird planes will be used by the flyers.

# BOBBY'S BIG STICK DID WORK.

BY ED O'MALLEY.

The Vernon Tigers, champions of the Pacific Coast League of 1919, had a good week with the willow against the Angel hurlers. Of the leading sluggers, only one, Catcher Brooks, showed a palpable falling off as compared with his work against the Bee chuckers. Clarence registers a decline of thirteen points, but still finishing the season with the splendid average of .326. It was the nifty backstop's best year's work with the bickery and undoubtedly makes him the premier catcher of the league.

And now, ye Bengal rooters, all stand up and take your top pieces off to Bobby Meusel, for figure as you may, the fact still will stand out with a peculiar luster that this slugging bird won the pennant for Vernon last week with that mighty wagon tongue of his. Again, we repeat it, and that most adventurously, that Bobby Meusel is the greatest slugger ever seen on the Pacific Coast.

WE'LL SAY SO.  
And now the question arises, Will he make good up in the big company? To this query we say "Yes" with our foot on the loud pedal and a calliope accompaniment. If a great natural hitter like Bobby doesn't justify our judgment of him when collared with the big wise down East, then we have never seen a ball game and the pecky old earth has shot off at a tangent.

Old Kerry Patch, Hughie High, was there again with another good week, climbing up into row .316, and here we know to Bill Easick's judgment, for he garnered one of the best left fielders ever seen on the Pacific Slope. Hughie is fast on the bases, a sure catch and a humdinger of a hitter.

Borton broke even on the two game home run and finishes a .300 batter. Babe was of big help to the Bengals all year and is one of the greatest first base sappers that ever played on the Coast.

THERE WITH STICK.  
Edgington dropped only three points finishing just above the magic line. Stumpy has been beat with the old stick all year and has battled in many a Tiger run. He is one of the peppy players ever seen at Washington Park and has been a tower of strength to Bill Easick all year.

We can't say enough about old Ironsides in center field, Chadbourne. If he isn't the cleverest thing ever seen in the center garden hereabouts, then we surely have allowed our wits to go wool-gathering. Chet is in niche by himself. Bobby Fisher the class of the league at the Keystone station gained two points and almost reached the .300 mark. As a timely slugger and pinch hitter, he is par excellence the daddy of 'em all in the Far West. When Bill Easick dove into the baseball pond early in the season, for a new second sacker, he brought up Bobby and two handfuls of diamonds of the purest ray serena.

And now for the Angels. Sam ELLER PUT IT ON THE SOX.

(Continued from First Page.)  
singled, but Williams whiffed and again the Sox failed to return.

NOTHING EXPECTED.  
Nothing could have appeared less suspicious than Eller when he came to the plate at the beginning of the sixth round. As a pitcher, nothing was expected of him, and among those in this frame of mind was Claude, alias "Lefty" Williams. Even the organization of red faxians, who were in the center garden hereabouts, then we surely have allowed our wits to go wool-gathering. Chet is in niche by himself. Bobby Fisher the class of the league at the Keystone station gained two points and almost reached the .300 mark.

As a timely slugger and pinch hitter, he is par excellence the daddy of 'em all in the Far West. When Bill Easick dove into the baseball pond early in the season, for a new second sacker, he brought up Bobby and two handfuls of diamonds of the purest ray serena.

And now for the Angels. Sam ELLER PUT IT ON THE SOX.

(Continued from First Page.)  
The English Football Association, the governing council of the soccer code, has applications from the South Africa Football Association, and New Zealand for English eleven to visit those countries next season.

## "THE Car of the Future will be a LIGHT-WEIGHT car!"

The Automotive Engineer says: "The feather-weight car of the future will roll up thirty to forty miles for every gallon of gasoline. It will register at least twenty thousand miles for each set of tires. It will turn upside-down all existing tables of car-performance and service!"

"It will not depend upon bulk for its durability, nor upon weight for its riding ease—but upon advanced structural design and new materials—upon balance, proportion and spring suspension.

"All excess weight will be left in the foundry to be used for flatirons or for other products in which weight will not tax upkeep, retard performance or shorten the life of the car.

"The motor of today is a high-powered motor only because it is forced to pull an excess load that is just as unnecessary as a lead filling in the saddle of a horse. Compared with this power plant, the motor in the car of less than a thousand pounds will seem like a miniature.

### At the last meeting of the Society of Automotive Engineers

William B. Stout, Consulting Engineer, The United Aircraft Engineering Corporation, said:

"We should have a 900-pound, 8-passenger car that will be a better riding car than any now on the market. This will be made possible through war experiments for airplane construction, and the engine will be of 15-horsepower, 6-cylinder, weight 120 pounds. This car should give 30 to 40 miles on a gallon of fuel. The problems are in carrying weight and axle and drive."

Henry M. Crane, Vice-President and Chief Engineer of the Wright-Martin Aircraft Corporation, said:

"The trend is toward lighter cars. The closed bodies will be made in increased proportion. There will be a greater mileage per gallon of fuel. Maintenance must be made less of a problem for the car owner."

"The cars of the country now are hauling at least five million tons of weight more than will be hauled by the same number of cars when the car of the future comes into its own.

"Excess weight is helping to keep the number of cars scrapped each year above the million mark.

"Excess weight is responsible for the fact that tires are pounding out quickly instead of wearing out s-l-o-w-l-y.

"Excess weight is causing enormous and unnecessary drains on an already failing gasoline supply.

"The tide of development in motor transportation flows irresistibly in

the direction of the car of greater economy of operation, greater ease of handling, better riding qualities—the car that will impose a smaller tax on its owner and upon the communities whose roads it travels—The Car of the Future will be a Light-weight car!!"

## COMPANY GROWS STEADILY

Quarterly Report of Union Oil Shows a Bigger Production Than Ever.

The quarterly report of the Union Oil Company, made public yesterday, and covering the first nine months of this year, shows a gross profit of \$13,100,000 and a net profit of \$9,200,000.

The production of crude oil by the company and controlled companies combined, approximately 4,400,000 barrels, an increase over the same period of last year of 150,000 barrels. The well brought in on March 11 last, on the Chapman ranch, Orange county, produced 125,000 barrels of oil to September 30 last, and is still flowing at the rate of about 400 barrels per day.

The company is drilling three wells in the Lusk dome, Wyoming, and three in the Texas fields. Well No. 1 in the Chinampa district in Mexico is down about 2300 feet, and drilling has been commenced on well No. 2.

Sales for the nine months approximate \$28,000,000, an increase in value of \$3,500,000, or about 25 per cent. Owing to the large delivery of fuel oil there is a slight reduction in the quantity of oil in storage as compared with the commencement of the year.

Capital expenditures approximate \$5,100,000, consisting principally of the cost of new drilling and additions to existing plants. The new refinery at the Los Angeles Harbor is now in operation, about 10,000 barrels of gasoline being produced from that plant monthly.

Current assets, consisting of cash, government bonds and notes and treasury certificates, accounts and

the bills receivable, oil inventories and materials and supplies at September 30, 1919, approximate \$26,300,000, an increase over December 31, 1918, of \$2,444,000. The company is strong in cash resources. Current assets are over seven to one of current liabilities. The quantity of crude oil in storage owned by the company at September 30, 1919, approximate 18,710,000 barrels, and, including stocks controlled through the agency, 11,000,000 barrels. The State storage being about \$5,000,000.

Current liabilities at September 30, 1919, approximate \$4,000,000, which is about \$1,000,000 less than at the end of 1918. During the nine months there has been a decrease in the first mortgage bonds in the hands of the public of \$1,044,000. Purchase money obligations increased during the nine months approximately \$119,000.

Capital stock outstanding at September 30, 1919, amounted to \$42,431,000. On August 12 last \$42,431,000 of the capital stock was offered to stockholders for subscription at par, payable in installments. The period up to September 1, 1920. The surplus and operating reserves approximate \$28,000,000.

The regular quarterly dividend of \$1.10 per share, together with an extra dividend of \$1.10 per share, declared on October 6, 1919, payable October 25, 1919, to stockholders of record October 10, 1919, and will reopen at 4 o'clock p.m. Thursday, October 9, 1919, and will reopen at 9 o'clock a.m. Monday, October 27, 1919.

The report is by W. L. Stewart, president, and R. D. Matthews, comptroller.

## NEW KEYSTONE PLANT UNIT

Work started yesterday on unit B of the group of new factory buildings being erected for the Keystone Iron Works at Santa Fe avenue and Thirty-fifth streets, the completion of which calls for an expenditure of approximately \$500,000 for plant and equipment. This building will house the gray iron, brass and steel departments of the plant. It will be 100x165 feet, and will occupy a central position on the six and one-half acres which the company acquired for its new home. The contract is

for this building was \$71,400. The Keystone Construction Company has the general contract. This unit A of the plant, a two-story structure, is fast nearing completion. This will house the executive offices, warehouse, etc., of the plant. The buildings are all of reinforced concrete construction.

The construction of this new plant for the Keystone company, one of several large industrial enterprises now going forward in Los Angeles, results from increased business demands. According to H. L. Griswold, president of the company, the business is now running 100 per cent, ahead of last year.

## COTTON MARKET IS UP

ON BULLISH ADVICES.

SUDDEN ENDING OF BRITISH RAILWAY STRIKE CAUSES RUSH TO BUY.

(EXCLUSIVE DISPATCH.) NEW YORK, Oct. 6.—The sudden ending of the British railway strike and consequent jump in Liverpool cables caused a strong and active response in cotton futures and spot markets, but traders here and abroad of the market, but a general covering movement developed in the cotton futures market, and the price advanced to 15 1/2 cents and this was followed by further advance in the cash market on such contracts.

The early cotton futures market was stimulated by the sudden ending of the strike, and the price advanced to 15 1/2 cents and this was followed by further advance in the cash market on such contracts. The price of cotton futures advanced to 15 1/2 cents and this was followed by further advance in the cash market on such contracts. The price of cotton futures advanced to 15 1/2 cents and this was followed by further advance in the cash market on such contracts.

## Pacific Gas and Electric Company

First Preferred 6% Cumulative Stock

Represents preferred ownership in the most essential single industrial organization in California today.

We can get along, if necessary, without telephones. We can do fairly well without trains and street cars. We have done for a time without running water. But without gas and electricity the wheels of industry would come to a sudden stop, the great majority of homes would be without heat, and every city would be shrouded in darkness.

The Pacific Gas and Electric Company serves 74% of the gas and electricity consumed in Northern California and 48% in the entire State.

The Company has realized its responsibility and has served the public well. Its rates have been lowered whenever possible and raised only when absolutely necessary. Its earnings are large, but they represent only 8% upon its acknowledged property value. It has paid dividends on this preferred stock uninterruptedly for ten years.

We own, offer and recommend this security for your investment. Free from State, city and county personal property taxes and normal Federal income tax.

PRICE \$89 PER SHARE —YIELDING 6 1/2%
